Subhan Raza

Cloud Engineer / DevOps Engineer

0322 7643183 subhanraza032@gmail.com in/subhan032 github.com/Subhan032

EXPERIENCE

Self-Directed Cloud & DevOps Projects

- Assisting in containerizing applications using Docker and orchestrating multi-service environments.
- Completed foundational training in Linux, Git, and Docker for production-ready deployments.
- Currently practicing scripting and automation for infrastructure tasks.
- Contributing to internal DevOps workflows in a cloud-native development environment.

Automated infrastructure deployment using Terraform, enabling consistent and repeatable environments.

- Built and deployed containerized applications using Docker, optimized images, and pushed to Docker.
- Orchestrated multi-container applications with Kubernetes (Minikube & kubectl).

PROJECTS

NGINX Reverse Proxy with Docker Compose

- Routed traffic through a NGINX container to a Node.js API connected to a MySQL container.
- Secured internal communication by exposing only NGINX on port 80; backend services remained isolated.
- Tools: Docker Compose, NGINX, Node.js, MySQL

Real-Time Chat App with Docker

- Developed a real-time chat application with a React frontend and Node.js WebSocket backend.
- Containerized the app using Docker, with separate containers for the frontend and backend with networking.
- Tools: Docker, Docker Compose, React.js, Node.js, WebSocket, Azure

Distributed Voting App with Docker Compose

- Deployed a multi-service app using Docker Compose with Python, Node.js, .NET, Redis, and PostgreSQL.
- Managed service dependencies, custom networks, and persistent volumes.
- Tools: Docker, Docker Compose, Redis, PostgreSQL

Cloud Resume Challenge

- Built a cloud-based personal resume website integrated with AWS services following the Cloud Resume Challenge architecture.
- Implemented CI/CD pipeline with GitHub Actions and automated infrastructure deployment using Terraform.
- Tools: AWS (S3, CloudFront, Lambda, DynamoDB), Terraform, GitHub Actions, HTML/CSS, JavaScript

EDUCATION

Bachelor of Science (Hons), Computer Science — Jan 2022 – July 2025

University of Hertfordshire (UK)

CERTIFICATIONS

- **Microsoft Certified Azure Administrator Associate (AZ-104)**
- **Microsoft Certified Azure Solutions Architect Expert (AZ-305)**
- **Microsoft Certified DevOps Engineer Expert (AZ-400)**
- **AWS Cloud Precticiner Essentials**

Skills

- AWS (EC2, S3, IAM, VPC, RDS, CloudWatch, CloudTrail), Azure (VMs, Resource Groups, Blob Storage).
- Terraform, AWS CloudFormation (basic), Python (automation scripts), Bash
- GitHub Actions, Jenkins (basic), Docker (containerization), Kubernetes, Git
